COUNTING THE COIN.

Examining the Contents of Uncle Sam's Strong Box.

Four Men Have Been at Work for Two Months—A Task That Would Take an Expert Fifty Years.

Down in the dimly-lighted interior of the treasury building four of the secretary's subordinates are counting the contents of Uncle Sam's treasure vaults, amounting to \$767,782,216. This is always done when a change occurs in the office of treasurer of the United States. The gentlemen now having the matter in charge are Messrs. E. B. Duskam, chairman; A. T. Huntington, M. R. Vance and Howard Elliot. The latter represents the new treasurer, Ellis H. Roberts, while the others act on the part of the government, especially the retiring treasurer, D. N. Morgan, who on the completion of the count takes a receipt for the funds. So correctly kept are the books of this immense financial institution that the least shortage is readily discovered and must be traced. Notwithstanding the absolute certainty of discovery, the temptation to steal is too great to be resisted by some of the employees, and only a few days ago one of the negro laborers assisting the committee helped himself to a few depreciated silver dollars, was found out, confessed, and is now in the district jail awaiting trial. An occasional theft like this is the exception that proves the rule of honesty.

The committee began its labors on July 1, and will probably complete the count the latter part of this month or early in October. The following are the present contents of the vaults in the United States treasurer's office:

Vault 1—Amount, \$103,733,000; description, standard silver dollars; halves, \$345,000. Vault 2—Amount, \$48,017,000; description, standard silver dollars. Vault 3—Amount, \$3,300,000; description, gold coin. Vault 4—Amount, \$609,000; description, fractional silver, \$322,000; minor coin, \$87,000. Vault 5—Amount, \$3,500,000; description, national bank notes received for redemption. Vault 6—Amount, \$1,000,000; description, mixed moneys received daily for redemption. Vault 7—Amount, \$27,000,000; description, mixed moneys for daily use. Vault 8—Amount, \$270,623,216; description, bonds held as security for national bank circulation, etc. Vault 9—Amount, \$310,000,000; description, held as reserve to replace worn and mutilated notes unfit for circulation. Total, \$767,782,216.

The silver vault is the largest in the world, being 89 feet long, 51 wide and 12 feet high.

The latter section of the treasury chambers is the most interesting and is open to the general public, who view its interior from a dungeon-like corridor when accompanied by a messenger of the department, and then only through the bars of a securely locked steel door, where a Cerebus-like conservator eyes with seeming suspicion all visitors.

The silver is packed in small sacks, holding \$1,000 each, and weighs 59 pounds 4 ounces. It is counted by weight and the least deficiency or defect in the bag is sufficient cause for rejection. Such a sack goes to the issue division, where it is counted numerically by an expert, placed on the scales, returned to the vault and again weighed.

In the vaults iron latticework partitions divide the space into several compartments. Around the outer edge and against the iron frame the silver coin is placed in boxes, and the central part of each chamber is then filled with the silver in sacks. Each of these apartments is secured by key locks, only opened by two different keys kept by the cashier and the vault clerk, while the burglar-proof metal doors protect the entrance to each vault. On these combination time locks are used.

Some interesting figures were furnished by one of the employees who is somewhat inclined to make computations. A cubic foot contains 4,684 standard silver dollars; packed in sacks of 1,000 each, \$4,100 are required to fill the same space. At the department 1,000,000 of these dollars are estimated at 30 tons, and the contents of all the vaults, if represented by silver dollars, putting the amount at 767,000,000, would weigh 23,010 tons. This, loaded into ordinary freight cars with a carrying capacity of 20 tons, would require for transportation a train of 1,150 cars, that would stretch along for a distance of a little more than seven miles.

The experts in the issue division are ladies, whose daily task in handling notes means the actual counting of eight packages of 4,000 bills each, the close scrutiny of the seal, the careful watch of the serial numbers and, in the case of old money, the instant detection of counterfeit notes. Their hours of labor are from nine o'clock until three, with an intermission of half an hour for luncheon. When hurried some of these experts can count 40,000 notes in a day.

An expert counting at the rate of 40,000 every working day would be engaged for more than 52 years and 6 months counting the above sum in dollar bills.

Notes in the issue division, after passing through the hands of the counters, are packed in bundles of 1,000 each and weigh 11 pounds. When enveloped in a manilla paper wrapper they measure 7½ inches by 7 inches by 6½ inches.

The 767,000,000 if in one dollar notes would weigh 4,218½ tons.

A one-inch cube of gold is worth \$210; a cubic foot, \$362,380, and a cubic yard is valued at \$9,797,762.—Washington Star.

Why Not?

"Harry," said Mrs. McBride, "what word should I use to describe a person who resorts to subterfuge?" "I'd call him a subterfuge," replied Mr. McBride.—Judge.

A woman's looking-glass does not lie to her. If she looks carefully and owns the truth to herself, she will acknowledge that it shows to her, as it shows to others, a face full of the ugliness of suffering and pain. If a woman wants her mirror to reflect a pain-free face she should take proper care of her womanly self. She should see that the organs that are distinctly feminine are kept free from weakness and disease. By this means only can a woman remain fresh-looking and attractive.

Women may erase from their faces the lines of suffering by using Dr. Pierce's Favorite Prescription. Over 90,000 women have testified in writing to its marvelous merits. It acts directly on the womanly organs. It makes them strong and healthy. It cures all weakness and disease. It allays inflammation, soothes pain, and calms and steadies and invigorates the pain-racked nerves. It prepares for widowhood and motherhood. It does away with the discomforts of the expectant period. It insures baby's health and makes its advent easy and almost painless. All good druggists sell it.

"I am going to write and tell you the benefits I have received from taking your medicine," writes Mrs. J. B. Clough, Box 203, Lisbon, Graffon Co., N. Hampshire. "I am the mother of a nice baby four and a half months old. He is a perfect child and weighs about eighteen pounds. If you remember I wrote you about a year ago about my condition. I cannot give too much praise to your 'Favorite Prescription' as it saved me a great deal of suffering. I got along remarkably well, this being my first baby."

"Knowledge is power." In a thorough knowledge of the human body lies the power that will at last stamp out weakness of the body and mediocrity of mentality. Dr. Pierce has taken a long look into the future through his 'Common Sense Medical Adviser.' It is full of just such knowledge as will do the family the most good. This book of over 1000 pages and finely illustrated has had an unprecedented sale. About 700,000 copies have been sold at \$1.50 per volume. Now it can be had in paper covers for 21 cents in one-cent stamps. In fine French cloth for ten cents more. Address, World's Dispensary Medical Association, Buffalo, N. Y.

to 234 Temple Court, New York City
R. Katz, Agent.

A MIXED MUNICIPALITY.

The Supreme Court of California rendered its decision on Wednesday in the tax levy case which involved the question as to which of the levies, viz., the one adopted by the members of the ousted Board of Supervisors of San Francisco or that adopted by the new board appointed by Mayor Phelan and Governor Budd should stand. The Supreme Court ordered that the writ of mandate applied for by Supervisor Morton compelling the Auditor to recognize that adopted by the ousted board be granted.

Justice Hewshaw wrote the opinion and five of the justices assented, only one, Justice Carrouttes, dissenting.

This decision is generally accepted as paramount to the re-instatement of the old board pending the appeal from the decision of Judge Wallace ousting the members for malfeasance in having failed to fix the water rates within the time specified by law.

Mayor Phelan will, now be placed in rather a peculiar position, having to deal with a Board of Supervisors the members of which, under the circumstances, cannot have a very friendly regard for the Mayor and it is quite probable that they will make matters very unpleasant for him.

The people of San Francisco in the meantime will be compelled to suffer all sorts of annoyances in the management of their municipal affairs as the bitter factional feeling existing between the old board and the Mayor and his supporters will doubtless be demonstrated to its fullest extent and to the detriment of the innocent taxpayers who are usually the ones who are compelled to take the blunt of all such rows without sharing in any of the claimed benefits.

San Francisco has been in a municipal mess for years, Buckley, Rainey, Dennis Kearney and others keeping the city in a rumpus most of the time. In fact the people would feel lost if there wasn't a municipal squabble going on.

Other Pacific coast cities have been progressive and are constantly growing and really sapping the life out of San Francisco. With all of its superior advantages in location, commerce, etc., it is the jay town it has been termed and it is a wonder that the people haven't grown tired of the pot-house politicians and shelved them eternally.

PURE WATER IS THE ORDER.

Now that the people of Reno have expressed themselves emphatically in favor of a pure water supply, the Board of City Commissioners will doubtless act promptly in the matter and the bonds will be issued and the work commenced immediately.

The act incorporating the town, in its many details is very plain and the board has simply carried out its provisions as far as it has been possible. The election of yesterday directs the board to proceed and complete the work planned and voted for at the election nearly a year ago and under those instructions the board can do nothing else but act in accordance with the wishes of the majority.

The question has been discussed freely on both sides, and it is to the credit of those who have contributed articles for and against the issuance of bonds that the discussion has been free from any serious personal criticism or reflection. Municipal controversies of this character usually create much bitterness, but in this particular fight there has been comparatively little buttonholing or heated argument. It has really been a friendly contest, each person advocating the other the right to judge for himself and exercise that judgment at the polls as he saw fit.

It is believed that the feeling generally was expressed in the interest of the community and without prejudice or personal consideration.

AFTER a discussion which continued several days the Chamber of Deputies of Peru have adopted the gold standard by a majority of one vote. The plan for a gold standard was sent to the Chamber some time ago after having been approved by the President and Cabinet. The Cabinet believed this the only possible solution of the financial troubles which beset Peru. The narrow margin of the victory of the golds shows the straits they were put to. This victory will doubtless be heralded far and wide by the gold press as one of the indications that the gold standard is acceptable and should be adopted.

The division of chemistry of the United States Agricultural Department invites correspondence on the matter of adulterated foods—imitations, misbranding, etc. They wish any records of cases where facts and not theories exist, and the people of Nevada are invited to assist the crusade against the fraudulent adulteration of foods.

It is semi-officially announced that Captain-General Weyler will be recalled from Cuba this month. It would have been praiseworthy in Spain had she recalled him before he was sent to Cuba. He has made a record in warfare and barbarism that would make a Sioux or an Apache Indian ashamed of himself.

TELEGRAPHIC NEWS.

W. E. Besse, W. H. Renland and J. E. Dickinson, all bank officials of an Asheville, N. C., bank were arrested yesterday for embezzlement.

W. A. Clarke, a Montana millionaire, has purchased 8,000 acres of land near Los Angeles, on which he will erect a large beet sugar factory.

It is reported that Max Stewart, an American and ex-Confederate soldier, will be shot at Parral, Mex., for killing a policeman. President Diaz has refused clemency.

Three men who have been committing burglaries and highway robberies in Sacramento of late were arrested and are now safely in jail. They gave the names of Frank Davis, Henry Lynch and Frank Howard.

The Chicago and Alton passenger train was held up near Evanston, six miles from Kansas City. The robbers failed to blow the safe open after several trials and only secured \$80 from the trainmen for their trouble.

The yellow fever in the infected districts of the South is abating. As usual the doctors disagree as to the disease being the genuine yellow fever. There are few deaths and very few new cases. It is thought the disease, whatever it is, will soon be stamped out.

Forest fires are raging along the Canadian & Atlantic Railroad. Five townships were burned over. Fires are also raging in Southern Indiana, and the farmers have organized to fight the flames. Edgerton and Baldwin, two small towns, were threatened with destruction.

Late dispatches from Havana say that the city is in a state of turmoil, and cries of "Death to the United States; long live Spain," "Death to traitors," and similar cries are heard on every side. The Spanish soldiers threaten to throw down their arms if Weyler is recalled.

A Family Settlement.
Stephen Montgomery has one of the very best pieces of corn in Williams-town. Although 73 years old he has plowed for, planted and lost his crops. By the way, it would be difficult to duplicate the Montgomery step in this or any other region. Stephen and his wife live just south of the old saw-mill. Their youngest daughter Fannie, with her husband, Herbert Rice, is next door. Close by are Edward, the youngest son, and his family.

Next are Albert and his wife and little girl. Just below Albert is a Mrs. Freeman and wife. Opposite the school-house is Emeline, the eldest daughter, with her husband, Tibb Goodall, while nearly opposite the last-named house live their daughter, Mamie, and her husband, H. C. Lee, and their little girl. Here, surely, is a seven-fold cord, the grandparents, the four children, and the only two adult grandchildren and their families, four generations, 15 persons in all, living within hailing distance of each other.—North Adams (Mass.) Transcript.

Clocks That Turn Out the Lights.
In these days of electricity it is not essential to have somebody turn out the lights. Time switches are made which can be attached to a clock and made to turn out electric lights at any desired hour. Suppose, for instance, the lights are in a show window, and it is desired to put them out at midnight. At that hour the clock closes a circuit, permitting the passing of an electric current to the switch, which, thus released, cuts off the electric light and so puts out the lights.—N. Y. Sun.

For Over Fifty Years.
Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. It disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces Inflammation and gives Tone and Energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

The Viavi Work.
In no way can we do more good than in restoring the sick to health. This Viavi will do, if it intelligently used.

Have you stomach trouble? Use our Tablets.
Have you piles? Use our Sano.
Have you catarrhs? Use our Catarrh Remedy.
Are you weak and all run down? Use Viavi.
Come and see me and I will fully explain the use of all of our remedies.
MRS. B. E. HUNTER,
Fourth Street.

By Special Request.
Dr. Freeman, the specialist, has consented to visit Reno, at the Riverside Hotel, on Oct. 8th, 9th, and 10th fully prepared to examine and treat all chronic diseases, eye, ear, nose and throat, fits spectacles correctly, treats deformities of the back, hip, knee and club feet; cures rupture; relief and safe after the first treatment. This is a rare opportunity to consult the oldest and most successful specialist on the coast. 5-3t

General Assembly
General Assembly will be held on Friday at 1:30. Miss Belle Kearney of Mississippi, who has won an enviable reputation as a public speaker, will lecture on Alaska. Music by the University quartet. Friends of the University are cordially invited to be present. 10-7t2

THE HUMAN HEAD.

Progress in Knowledge Increasing Its Size.

Comparative Dimensions of Craniums of Famous Men of Ancient and Modern Times.

According to Prof. John H. Francis, of New England Terrace, Orange, N. J., ethnological statistician, as the world progresses in knowledge the human grows larger and larger. As a consequence the man of to-day carry on their shoulders a "dome of thought" beside which the occiputs of the ancient heathen were small almost to insignificance. In a recent interview he said: "As civilization increases education becomes more and more general among men. The brain begins its training at an earlier age than ever before, and as our modern intelligence is subjected to greater activity the brain develops accordingly. Consequently the size of the head expands. This is thoroughly consistent with Darwin's theory of evolution, as well as with every principle of science that I know of."

"Such men as Caesar and Shakespeare were prodigies, and must be considered apart by their very genius. While admitting that the size of the brain among ancients must have been much less than that of a man living to-day, I am forced to this double conclusion with respect to such a man as Caesar—namely, that what brain he had must have been of the highest possible quality, and moreover, that if he lived to-day, with a brain of such rare quality added to the enlarged size of it, such a nature equips men with now, his genius would have been proportionately magnified."

"Julius Caesar was a mighty man—for his time. If he lived to-day I doubt if he would be much larger than Tom Thumb. By a careful system of calculation I figure out that the great Caesar would have worn a 5½ hat, and as for Shakespeare, colossal, figuratively speaking, as was his brain, I have not the slightest doubt that he carried it about without crowding in a 6½ hat—and that's figuring on him generously, too."

"I have been told that Napoleon wore a 6½ hat in the latter years of his life, and from one to two sizes smaller when he was simply an officer in the army. If Napoleon Bonaparte had ever been able to put on the hat of Gen. Grant it would have hidden him from sight from the crown to the shoulders."

"Washington was a good-sized man, yet he wore a hat 2½ sizes smaller than McKinley's, whose immediate predecessors, Presidents Harrison and Cleveland, wore still larger hats—7½. Let me give you a further illustration. A census of the United States Congress, taken in the time of President Taylor, 50 years ago, shows that our legislators of that time only wore on the average a 6½ hat. I doubt if there is a single man in either house to-day who wears so small a size."

"Webster, of course, had a phenomenally big head. Of his colleagues and predecessors, however, there was not one who wore a size as large as that of the present secretary of state. John Sherman wears a 7½ hat. Foster wore a 7. Blaine 7¼ large size, and Bayard 7½ close."

"Let me conclude with a further illustration of my theory. Old Commodore Vanderbilt wore 6½. His son, William H., took a hat a shade larger, which the hat makers mark at 6 and 1-16. Willie K. Vanderbilt and his brother Cornelius wear 7½, and one of the boys of the fourth generation takes a hat still larger than his father, uncle, grandfather or great-grandfather—which doesn't necessarily prove that the youngest scion is the brainiest."

"It is the same way with the Goulds. Jay Gould wore a 6½ hat, while his sons, George and Eddie, each require a 6¾. The probability is that the next generation of boys will go their illustrious progenitor at least three full sizes better."—N. Y. Journal.

FIRES ALONG SHORE.

Millions of Property in New York Protected by a Fleet of Fireboats.

With the growth of a large city, the protection of the water front from the ravages of fire becomes an important study, almost as important as the study of fire protection for the city itself. Nearly every large city in the United States owes its growth to its nearness to some body of water, either lake, river or sea, which offers exceptional advantages for the transportation of immense quantities of merchandise, and also provides harborage for all manner of craft engaged in this work.

This merchandise has to be stored somewhere during the process of loading and unloading these vessels, and the big warehouses and wharf buildings along the water front serve this purpose; but very often the most valuable cargoes are stored for a time in the flimsiest kind of buildings, needing but a spark to start a destructive conflagration.

As a city increases in size its importance as a freight center grows in proportion; and the value of freight and merchandise stored along shore, during transit, in a big city like New York, can only be imagined. No reasonable valuation can be given, for we should have to dive too deeply into the amounts of imports and exports to get anywhere near the truth; but it is safe to say that \$100,000,000 would scarcely cover the property exposed to the danger of fire, in a single day, among the piers and wharf houses of New York city.

Nor is this danger confined to piers and wharf buildings alone, but vessels in the act of loading and unloading valuable cargoes, the big bonded warehouses along the river front, the docks for great ocean steamers, and the freight stations of many big railroads are also exposed to this risk, and need to be well protected, for a serious fire among them would destroy more valuable property than perhaps a fire of the same extent in the very heart of the city.

Fires along the shore are difficult ones to handle. There is always more or less wind near the water; if a gale is blowing it seems to have twice as much force on the water front, and a fire once started here spreads very rapidly. Then fires on the piers, or in the wharf buildings, are usually very hard to fight—although there is plenty of water all around, it is difficult to apply it to a good effect. The land forces can only fight such a fire from one position—the street side; and if the wind is blowing inland it drives the smoke and fire directly at them, and makes it nearly impossible to hold this position. It is here that the floating fire engine or fireboat can do its valuable work; and New York possesses a fleet of such vessels—three boats that are fully able to cope with a fire of almost any size, whether it be among the shipping, alongside, or anywhere in the harbor.—Charles F. Hill, in St. Nicholas.

To Build A Hardware Business

up to the right pitch is hard. We have for years been perfecting our store—attending to innumerable details—until now we are proud of our store and of anything we sell.

FRIDAY, OCTOBER 8, 1897.

BREVITIES.

Water pipe laid cheap by Lange & Schmitt.

W. E. Sharon changed cars for the west last evening.

Mrs. Montz Scheeline took the train for California last evening.

Window glass, all sizes, at the Porteous Decorating Company. o65w1

Rubstaler's Gilt Edge beer at the Wine House, cool and fresh.

G. E. Allan, the Ludwig piano man, was a westward bound passenger last night.

The White Pine News has changed hands. E. H. Decker is now the editor in chief.

Judge Bonfield and Judge Balknap were passengers for Carson yesterday morning.

Pearl gloss tooth powder is absolutely harmless. Sold by Reno Drug Company. o65w1

Crockery, glassware, tinware and agateware lower than ever at Lange & Schmitt's.

Mrs. F. C. Updike was a passenger for Wadsworth last evening on a few days' visit.

The Monarch and Louvre make a specialty of Pabst beer and the lunches of the Louvre can't be beaten.

Universal cook and heating stoves, and cheaper grades sold at cost to reduce stock at Lange & Schmitt's.

Thyres' oyster cocktails are becoming very popular. No alcohol used in their preparation. Upon tamales every evening.

Governor Sadler has gone to his ranch in Huntington valley, Elko county, where his nephew Erwin Sadler of San Francisco, is ill.

The Granite Saloon is a quiet and pleasant place of resort. Cool beer is a specialty. Choice wines are sold by the gallon or in quantities desired also liquors of all kinds.

The lunches at the Granite Saloon cannot be excelled and the beer is served ice cold. A choice stock of wines by the bottle or gallon.

C. Novacovich has just received a carload of the celebrated Pioneer flour. He also has the chicken and oyster tamales in cans—something new and delicious.

Allen C. Bragg of the Gazette is in San Francisco. It is reported that he is looking after an appointment to the Hawaiian Islands, in the event of annexation.

The V. & T. will run a special train from Carson to Reno next Sunday on the occasion of the fifty-mile relay race. Fare for the round trip will be placed at \$1.

The fifty-mile relay race next Sunday between the Sacramento and Reno teams will be a great contest. Both teams will go for records and some great riding is expected.

The Carson races closed on Wednesday evening, and it is considered one of the best meetings ever held in the State. It is expected that Carson will hold two big meets next year.

C. Novacovich will handle the Kane Brothers' of Coloma, Cal., celebrated fresh fruits. Ladies who contemplate putting up fruit for the winter will do well to call and order their supply.

H. Riter is giving a splendid mercurial hot lunch to his patrons every day from 11 to 2 o'clock. Hot soups, meats, etc. Knapp & Street's tamales, 15 cents each. The family trade supplied.

Hon. S. T. Black, State Superintendent of Public Schools of California will spend the day in Reno visiting the schools. Mr. Black will address the students of the University at General Assembly to-day.

Call at Muller & Stump's Pabst agency for fine California and imported wines for family and medicinal purposes. Sherry, port, muscatel, angelica and all dry wines by the gallon. Open every day until 8 o'clock.

The latest Klondike news is given by the Chicago Record. It says: "Even the nuggets of gold which leave Alaska worth millions of dollars are so contracted by the intense cold that when they are unpacked and counted at Seattle they are found to be worth only a few thousands."

S. Emrich has just finished getting in all of his fall stock in dress goods, blankets, underwear, etc. Having succeeded in securing his stock before the Dingley bill went into effect, he saved the new duties on many of his goods and consequently gives his customers the benefit, by low prices.

I have just received a complete and well selected stock of gents' furnishing goods, underwear, overshirts, socks, suspenders, handkerchiefs, ties, etc., which I guarantee to be equal if not better than any in the town, which I will sell at prices that defy competition. My stock of domestic and imported cigars and tobaccos is complete in every particular, comprising such brands as the Nerve, Carl Dunder and Royal in the 5-cent goods, and El Belmont, Sanchez, Hays, De Vallens, Internationals, Hotel Brunswick, General Arthur and many others in the imported goods. Call and be satisfied. Free employment office in connection with the store. A. NELSON.

COMMUNICATED.

Ex-Commissioner Alt. Desires Information On Bills Allowed.

H. H. Beck, Chairman, Board of County Commissioners—SIR: As you and I were opposing candidates for the nomination for Long Term Commissioner before the last Silver Party County Convention, and as you notified that convention that if the people wanted to save \$7,000 annually, to nominate and elect you, and as that convention and the people evidently took you at your word, and a majority of that convention possibly had concluded that I was the "broadler" that you had often told the people all members of the board then in power were, I have seen fit to inquire of you, how much, up to date, of that \$7,000 you have saved the county? But in particular I should like to know if you have at all times had due respect for the law, which you so frequently used to draw on the old board. I should like to call your attention to Section 468 of the General Statutes which reads as follows:

"Sec. 468. No bridge, the cost of the construction or repair of which will exceed the sum of one hundred dollars, must be constructed or repaired except on an order of the Board of County Commissioners. When ordered to be constructed or repaired, the contract therefor must be let to the lowest bidder, after reasonable notice given by the Board of County Commissioners, by publication at least two weeks in a county newspaper, and if none, then by three posted notices—one at the Court House, one at the point to be bridged, and one at some other neighboring public place. The bids to be sealed, opened, and contract awarded at the time specified in the notice. The contract and bond to perform it must be entered into by the approval of the Board of County Commissioners."

Now I should like to inquire, if you have not violated that law when you cause to be expended, without any contract whatever, upon the Glendale Bridge at one time, \$800 for labor, \$300 for iron, \$612 for lumber and \$30 for nails, amounting in all to \$1,742? I should further like to inquire, if it wouldn't put you out any, why from \$14 to \$20 per thousand was paid for lumber which could have been bought for \$12? How about the recent repairs on the iron and cattle bridges both being in excess of \$100? Now Beck did you willfully violate the law, or didn't you know there was such a law, and if you didn't know it was there, didn't Hymers tell you about it? Also how is it that both you and the Auditor allowed a claim for \$326.01 in September for lumber to repair bridges? How will this bridge business rank with the metal case contract, that is, is it more rank or not? Does this now make you a "broadler" too, or does it release us all.

GEORGE ALT.

THE CITY ELECTION.

The People Favor the Bond Issue. The municipal election passed off quietly yesterday. In fact it was one of the quietest elections ever held in town. The saloons were all closed and there was no boisterous demonstration on the streets.

The city was divided into five wards and the polls were open from 8 A. M. to 6 P. M. The voting was conducted under the Australian ballot system. The questions voted upon were as follows:

First—Shall Reno be bonded in the sum of \$130,000 for the purpose of procuring water and erecting water works?

Second—Shall such bonds be payable in equal annual installments between and including the sixth and twentieth years from date of issuance, together with interest at the rate of six per cent per annum, payable annually at their maturity at the office of the city Treasurer of Reno?

Third—Shall Reno be bonded in the sum of \$20,000 for the purpose of establishing an electric light plant?

The second question is repeated on the ballot and made applicable to the payment of the electric light bonds.

The voter simply showed his intention as to his approval or disapproval of the several questions by marking an X opposite the word "yes" or "no," each of which appeared on the margin opposite the questions.

The vote stood, taking the first question as a basis, 409 in favor of issuing the bonds, and 130 against. The following table shows the vote in detail:

QUESTIONS.	WARDS.					
	1st	2d	3d	4th	5th	Total
First.....	Yes 53	57	75	108	116	409
	No 24	31	13	33	29	130
Second.....	Yes 55	55	74	107	115	406
	No 28	30	10	35	25	128
Third.....	Yes 53	54	71	104	105	387
	No 21	32	15	35	31	134
Fourth.....	Yes 51	53	70	103	104	381
	No 24	28	15	32	28	127

ROYAL BAKING POWDER CO., NEW YORK.

FROM CHARLIE LAKE.

He Writes to His Folks in Reno About the Trip Over Chilcoot Pass.

Charlie Lake wrote a long letter to his folks here regarding his progress over the Chilcoot Pass on his way to the Klondike. The letter is dated from Lake Linderman, September 21st, and in part says:

"We are now over the famous and so-called terrible Chilcoot Pass, all well and have enjoyed the trip. At Finnegans Point we bought two horses and packed from there a distance of four and a half miles to a place called the mouth of the canyon. We packed the horses with 250 pounds each and took a pack from 50 to 75 pounds each ourselves. We made two trips a day, the road was fairly good, being along the river bottom. From the mouth of the canyon it is about four and a half or five miles to Sheep Camp, and we also made two trips a day over this distance, but the road was fearful. It runs along the side of a mountain which is very steep and the trail very narrow and muddy, a foot deep everywhere, except where bridges had been laid down made of small logs, and on these it was next to impossible for our horses to walk. However, we crossed in four days from Sheep Camp, which is located on a small river with precipitous mountains on either side. The camp is composed of tents and a few log shanties.

"From there we hired our stuff packed over the summit to Crater Lake. We had 5,280 pounds, and we were forced to pay 12 cents per pound for packing. Our party had fifty-four men at work and they moved it all in a day. It cost us \$40 more to get the supplies and outfits across Crater Lake. It has been raining for two days and a cold wind prevails.

"Everything is very high here. Flour is \$24 per 100 pounds, sugar 25 cents per pound, whisky 37½ cents per drink, and it is home-made at that.

"We are still at Lake Linderman, and expect to be here about ten days yet. Pete and Doc are making the boat, and we will have a dandy. The ship yard here looks like San Francisco. There are all kinds and shapes of boats. We expect to reach Dawson City inside of twenty-five days if the river don't freeze up."

Almost Organically Pure Water.

Mr. Downing yesterday morning received returns from a sample of water taken from the Water Company's reservoir and forwarded to Professor W. E. Rising, State Analyst of California, and the head of the College of Chemistry of the University of California at Berkeley. His examination and report places the water among the good waters of the country, calling it almost organically pure. It will be observed that the parts of albuminoid ammonia per 100,000 gallons is hardly worth the mention. The certificate is as follows:

No. 180.
OFFICE OF STATE ANALYST,
BERKELEY, Oct. 6, 1897.
CERTIFICATE OF ANALYSIS.

"Mr. C. C. Downing, President Reno Water, Light and Power Company: I have examined sample marked 'Water; Reno Water Co.' received September 17, 1897, and report as follows:

Parts in 100,000
Total solids.....8,500
(476 grains per gallon.)
Chlorine.....0.5430
Free ammonia.....0.0106
Albuminoid ammonia.....0.0129
Nitrogen as nitrates.....None.
Nitrogen as nitrites.....None.
(Signed:) W. E. RISING,
State Analyst.

Took a Tumble.

Joe Ziegler, the popular mixologist at H. J. Thyres', had some difficulty with a bucking bicycle yesterday afternoon and as a consequence is laid up for repairs. Joe had occasion to cross the river yesterday and borrowed a bike for the trip. He made the trip over the iron bridge all right, but in returning he got it into his head that he was a scorcher and he pulled the throttle wide open on the bridge and let her go. The steep pitch on this side had been forgotten and when he reached it, he lost control of the wheel and struck head-on with a loose cobble stone. The wheel sheered off to one side and Joe kept going. For a moment he thought he had turned into a flying machine, the way he was cutting through the air, but finally the ground stopped him. Damages, side of face pretty well peeled off, right eye completely closed up, eyebrow open necessitating two or three stitches, hand out and innumerable bruises.

Dr. Thoma patched him up, and Joe says that he don't believe he will break his namesake's world's record on the bike next Sunday, he will have to postpone it.

FASHION NOTES.

Neat and Pretty Features of the New Costumes.

Chine effects are still the keynote of very many elegant and pretty fancies in the world of dress, the patterns appearing among silks, satins, muslins and silk-and-wool fabrics, and instead of the crisp, frothy, taffeta silk dress lining, pretty chine brocades are much used. Then a flounce of the same, cut bias, pinked on both edges, and placed inside the hem, is imperative. These fancy silks look well for a change, but the shot patterns, or, better still, the plain lustrous taffetas in monochrome, are really the most elegant and refined choice.

Some of the new dress skirts have a vertical or otherwise circular trimming carried from the waist downward to the depth of half a yard or so. Many women will be glad of this fashion, for a perfect figure below the waist line is rare, and it is always the study of the modiste to rectify this trouble, and the severe uncompromising skirt that has so long prevailed gave the wearer no chance of improving upon too great slenderness, nor of moderating the redundancy of the figure by judicious trimming. For the first-named defect, circular decorations are carried quite around the figure about the hips, and for the second, vertical garniture of unequal length, and slightly radiating as they descend, greatly modify the effect of over broad hips.

The checked, brocaded, striped and bordered silk-and-wool materials imported this season are suitable for any ordinary occasion, and if tailor-made and stylishly trimmed, they form elegant church, visiting and carriage costumes. Some of the mohair Siciliennes are likewise as handsome in appearance as a rich silk, and the white and cream patterns for evening, bridesmaids', and graduation dresses are as elegantly decorated and delicately silk lined as white satin or taffeta silk.

The woman who wishes to look her best must never blindly follow any and every new caprice of fashion, but aim to adapt fashion to her own special needs. Take, for instance, the very large ruches and collarettes now so popular. Very many women purchase these full frilly accessories, with no thought beyond selecting the shapes which please their fancy. They put the huge airy yokes about their necks, and in not a few cases they have a bison-like appearance. As a rule, the all-round collarettes are not so becoming to most figures as the pompadour style, or, better still, the shape cut in deep points one on either shoulder, the other two or three on the front and back respectively. Some of the latest collarettes are much elongated, not meeting just in front, but tapering downward, forming a sort of border to the wide box plait which still distinguishes the front of many fancy waists this season.—N. Y. Post.

FRUITS CANNED AT HOME.

They Are Cheaper and Better Than Store Goods.

It is said the American stomach has universally suffered from the use of canned goods. This, of course, applies only to bought goods which contain some chemical to preserve them. Peas, beans and tomatoes are treated to preserve their color, and with the exception of tomatoes all vegetables, it is said, contain something to prevent fermentation. Fruits, being without starch, keep more easily than vegetables, but many are variously treated to insure their fair appearance as commercial articles. Nearly all fruits, and some vegetables, are easily canned for winter use; and if a housekeeper once supplies her own storehouse, bought goods will never after have an attraction for her. It is a mystery why we use canned tomatoes when we are so often warned against their injurious effects, and when home-canned ones are so much better, altogether wholesome, so easily prepared and keep so well. Perhaps it is because of an impression that the bought ones, at nine or ten cents a can, are cheaper. This is not the case. The first cost of quart jars, at retail, is 60 cents a dozen. Tomatoes, at the height of their season, can be bought, even in cities, at 25 or even 20 cents a bushel. So even the first season a quart jar would not cost ten cents, and after that the cost of the jars can be subtracted, making the cost of the canned vegetable nominal.—Ella Morris Kretschmar, in Woman's Home Companion.

The Kaiser and the Telegraph. Emperor William when he is on his numerous journeys keeps up a lively telegraphic communication with Berlin. Before he starts arrangements are made with the telegraph authorities of the country he proposes to visit to insure uninterrupted connection between him and Berlin, wherever he may be.

If any place that he may find himself in is not on a telegraph line a temporary wire is strung for his benefit. Moreover, care is taken that his messages should be relayed as seldom as possible, and precedence is always given to the emperor's dispatches. The imperial yacht, the Hohenzollern, is generally connected directly with the telegraph line, so that when the emperor was at the little town of Odde, in Norway, recently, he could send messages directly to Christiania, whence they were forwarded to Berlin. Telegraph operators are always kept aboard the yacht, and connection with the shore is speedily established whenever the vessel makes a harbor, the necessary directions having been sent in advance and all arrangements made.—Chicago Tribune.

Pecan Macaroons.

Four eggs, one scant pint of flour, one scant pint of sugar, one pint of chopped pecans. Beat eggs separately, mixing yolks, sugar and flour, fold beaten whites into the mixture, adding nuts last. Drop from a spoon into a buttered baking pan; put a whole pecan into the middle of each.—Albany Journal.

Negroes Are Born White.

A French physician who has attended at the birth of many negro babies says that, as a rule, they are white or nearly so when born. The air turns them darker soon. He suggests that by rearing negroes in the dark the race could be made white in a few generations.—N. Y. World.

SUMMONS.

IN THE SECOND JUDICIAL DISTRICT
Court of the State of Nevada, in and for
Washoe county.
The State of Nevada ss to Dan Wm.
Taylor greeting:
You are hereby required to appear in an
action commenced against you as defendant
by Mrs. Dan Wm. Taylor as plaintiff in the
Second Judicial District Court of the State
of Nevada, in and for the county of Washoe,
and answer the complaint therein with ten
days after the service of you of this sum-
mons (exclusive of day of service), if served
in said county or twenty days if served out
of said county, but within said district, and
in all other cases forty days; or judgment
by default will be taken against you accord-
ing to the prayer of said complaint. The
action is brought to obtain a decree dissolv-
ing the bonds of matrimony heretofore and
now existing between the plaintiff and de-
fendant, upon the grounds that the defend-
ant did on or about the 1st day of October,
A. D. 1897, commit adultery with one Myrtle
Ostreicher at the town of Riko, county of
Riko, and State of Nevada, and upon the
further ground that the defendant did on or
about the 1st day of June, A. D. 1897, com-
mit adultery with one Emma Gleason at the
town of Riko, and State of Nevada, and
the further ground that the defendant did
between the said 1st day of June and the
commencement of this action on divers days
and times, commit adultery with the said
Myrtle Ostreicher in the city of Salt Lake
county of Utah, and State of Utah, and
upon the further ground that defendant did,
on divers days and times between said 1st
day of June and the commencement of this
action, commit adultery with the said Emma
Gleason, at the town of Ogden, county of
Utah, and State of Utah, and that the de-
fendant be decreed to be restored to her maiden
name, Emma Fraser. All of which will more
fully appear from the complaint which is on
file in the office of the Clerk of said Court,
at Reno, in said county, and to which you are
especially referred. And you are furth-
er notified that if you fail to appear and
answer said complaint, the said plaintiff will
apply to the Court for the relief demanded.
In testimony whereof, I have hereun-
to set my hand and affixed the
seal of said Court, at Reno, this
28th day of August, A. D. 1897.

F. R. PORTER,
Clerk of the Second Judicial District Court
of the State of Nevada, in and for Washoe
county. J. A. BONHAM, Deputy. 9-5w

ORDER TO SHOW CAUSE.

IN THE SECOND JUDICIAL DISTRICT
Court, Washoe county, Nevada.
In the matter of the estate)
of
Amanda E. Boyd, deceased.)
Calvin Conn, the administrator of the
estate of Amanda E. Boyd, deceased, having
filed his petition herein, duly verified, pray-
ing for an order of sale of all the real estate
of said decedent situate in Washoe county,
Nevada, for the purpose therein set forth, it
is therefore ordered by the Judge of said
Court that all persons interested in the estate
of said decedent, appear before the said
Court on

Saturday, the 16th day of October, 1897,
At 10 o'clock in the forenoon of said day,
at the court-room of said Court in Reno, Ne-
vada, to show cause why an order should not
be granted to the said administrator to sell
all of the real estate of said decedent situate
in Washoe county, Nevada.

That a copy of this order be published at
least two weeks successively prior to said
date in the DAILY NAVAJO STATE JOURNAL,
a newspaper printed and published in said
town of Reno, county of Washoe.

A. E. CHENEY,
District Judge.

Dated this 30th day of September, 1897. td

NOTICE TO CREDITORS.

IN THE SECOND JUDICIAL DISTRICT
Court, for Washoe County, State of Ne-
vada.
In the matter of the
Estate of
Caroline B. Norcross, Deceased.)
Notice is hereby given that the under-
signed, was, on the 28th day of August, 1897,
duly appointed by the District Court of the
Second Judicial District of the State of Ne-
vada, in and for Washoe county, Executor

PROBATE NOTICE.

IN THE SECOND JUDICIAL DISTRICT
Court of the State of Nevada, in and for
Washoe county.
In the matter of the estate
of Nathan Stanley, deceased.
Mary E. Stanley and Clara A. Ward, having
filed in this court a paper purporting to be
the last will and testament of Nathan Stanley,
deceased, with a petition praying that the
same may be admitted to probate, and for
the issuance to them of letters testamentary
thereon, Notice is hereby given that
Saturday, the 16th day of October, 1897,
At 10 o'clock A. M. (said day, at the 10 o'clock
room or said court in Reno, Nevada, has
been appointed as the time and place for
hearing said application, at which time and
place all persons interested may appear and
contest the same.

F. R. PORTER, D. C.
Dated September 29, 1897. 1d

NOTICE OF APPOINTMENT.

NOTICE IS HEREBY GIVEN THAT THE
undersigned has been duly appointed
and qualified by the Second Judicial Dis-
trict Court of the State of Nevada, in and for
Washoe county, as the administrator of the
estate of Mary E. Stanley, deceased. All
claims against said decedent will be consid-
ered if presented within time and according
to law.

September 25, 1897. 4w

ELECTION NOTICE.

UNDER AND BY VIRTUE OF THE AU-
thority of that certain Act of the legis-
lature of the State of Nevada, entitled "An
Act to incorporate the Town of Reno," ap-
proved March 8th, 1897,

NOTICE IS HEREBY GIVEN

That on Thursday, the seventh (7th) day of
October, A. D. 1897, a special election will be
held in the different Wards of the City of
Reno, Washoe county, Nevada, at which
election there will be submitted to the qual-
ified electors of the said City of Reno, as
shown by the last preceding official regis-
tration of the City of Reno, the following
propositions, to-wit: To-wit: To-wit: To-wit:
1. Shall the City of Reno, in the sum of
\$100,000, for the purpose of procuring water
and erecting water works?
2. Shall such bonds be payable
in equal annual installments
between and including the
sixth and twentieth years
from their date of issuance,
together with interest at the
rate of six per cent per annum,
payable annually, at their ma-
jority at the office of the City
Treasurer of Reno?
3. Shall such bonds be payable
in equal annual installments
between and including the
sixth and twentieth years
from their date of issuance,
together with interest at the
rate of six per cent per annum,
payable annually, at their ma-
jority at the office of the City
Treasurer of Reno?
4. Shall such bonds be payable
in equal annual installments
between and including the
sixth and twentieth years
from their date of issuance,
together with interest at the
rate of six per cent per annum,
payable annually, at their ma-
jority at the office of the City
Treasurer of Reno?

At the special election the polls will be
open at eight o'clock A. M. and will continue
open until six o'clock P. M. excepting that
not more than one hour shall be taken at
any time before four o'clock P. M.
upon proclamation thereof being made.
At the said special election the ballots to
be used will be furnished to the electors by
the election boards and will conform in de-
sign as near as practicable to those re-
quired by the laws of Nevada at general
elections.

At the said special election the polls, in-
spectors and clerks will be as follows to-wit:

FIRST WARD—Polls at Court house. In-
spectors: J. N. Bakkeles, Thomas Withered
and Sam Mondago. Clerks: E. R. Crawford
and S. W. Upson.

SECOND WARD—Polls at Sessions' house,
corner Second and East Streets. Inspectors:
L. Crockett, E. B. Marshall and P. P. Reed.
Clerks: J. H. Perry and John Robb.

THIRD WARD—Polls at J. M. McCormack's
house, corner Third and East Streets. In-
spectors: J. C. Kienast, J. V. Peers and M. S. Stevens. Clerks: W.
S. Heard and A. L. Longley.

FOURTH WARD—Polls at Engine House,
corner Second and East Streets. Inspectors:
L. A. Bakkeles. Clerks: Wm. Webster
and W. A. Fogg.

FIFTH WARD—Polls at Odd Fellows Build-
ing, Chestnut Street. Inspectors: E. B. Coffin
and E. W. Higgins. Clerks: S. Williams
and Fred Morrill.

By order of the City Council of the City of
Reno, Nevada, this 18th day of September,
1897.

F. R. PORTER,
Clerk.

Reno, Nev. 14, September 18th, 1897.

SUMMONS.

IN THE SECOND JUDICIAL DISTRICT
Court of the State of Nevada, in and for
Washoe county.
The State of Nevada ss to Emma Peter-
son greeting:
You are hereby required to appear in an
action commenced against you as defendant
by J. E. Peterson as plaintiff in the Second
Judicial District Court of the State of Ne-
vada, in and for the County of Washoe, and
answer the complaint therein within ten
days after the service on you of this sum-
mons (exclusive of the day of service), if
served in said county, or twenty days if
served out of said county, but within said
district, and in all other cases forty days;
or judgment by default will be taken against
you according to the prayer of said com-
plaint. The action is brought to recover
judgment and decree of this Court dissolv-
ing the bonds of matrimony heretofore and
now existing between you and said plaintiff,
upon the ground of willful desertion for a
period of more than one year, to-wit: ever
since on or about the 8th day of November,
1895, and against his will, wish or consent.
All of which will more fully appear from
the complaint, which is on file in the office
of the Clerk of said Court, at Reno, in said
county, and to which you are especially re-
ferred. And you are further notified that if
you fail to appear and answer said com-
plaint, the said plaintiff will apply to the
Court for the relief demanded.

In testimony whereof, I have hereunto set
my hand and affixed the seal of said Court,
at Reno, this 16th day of September, A. D.
1897.

WREN & JULIEN,
Attorney for Plaintiff.

SUMMONS.

IN THE JUSTICE COURT OF RENO
Township, in and for the County of
Washoe, State of Nevada.

The State of Nevada ss to Domingo Portel-
li:

You are hereby summoned to appear be-
fore me, at my office, in Reno Township, in
the County of Washoe, on the 14th day of Oc-
tober, A. D. 1897, at 10 o'clock A. M., to an-
swer upon the complaint of C. G. Colombo,
who sues on for \$100, alleged to be due upon
your promissory note, said note bearing date
March 26th, 1897, for \$50, bearing interest at
the rate of 6 per cent per annum, said note
being filed and constitutes a part of said
complaint, all of which will fully appear
from the complaint on file. And you are
further notified that judgment will be taken
against you for said note and interest, with
costs and charges, if you fail to appear and
answer.

To the Sheriff or any Constable, greeting:
For service and due return thereof.
Given under my hand this 16th day of
August, A. D. 1897.

J. L. L. L.
Justice of said Precinct Said Township.

KANSAS HAS THE CALL.

Beats All Other States in Produc-
ing Horses.

So Says a Horseman of That
State, Who Claims Pegasus
and Bucephalus as
Natives.

"Speaking of this record of Joe
Patchen, the Kansas horse, do you
know," said a Kansas horseman and
real estate agent, "that Kansas is the
greatest natural horse country in the
world? Talk about Arabia! Why, it
simply isn't in it with Kansas. If you
could trace the ancestry of all the
noted horses of the world you would
run 'em back finally to this country.
It's the climate and water that gives
'em the wind and speed."

"How about Pegasus?" asked a sal-
low-complexioned, professor-looking
man, who wore spectacles and talked
with a Boston-Bred accent.

"What was his stock, Hambletonian
or Kentucky Whip?" asked the Kansas
horseman, who hadn't heard of Peg-
asus, and was evidently sparring for
wind.

"Pegasus," replied the professor, as
he deliberately wiped his spectacles,
"was the noted flying steed captured by
Bellerophon, the son of Glauceus, while
quenching its thirst at a celebrated
spring."

"Oh, yes," said the Kansas horseman,
brightening, "recollect all about it now.
That spring was down here at Geuda,
Summer county. Best water for horses
I ever saw. Wild horses used to come
100 miles to drink that water. Didn't
know that feller Bellerophon personally,
but heard of him often. Think I
met him once when he was bringing up
a herd of horses from Texas. Boys used
to call him 'Beller' because he talked
loud. You could hear him all over
town when he called for a drink. He
was something of a blow, but he knew
the points of a horse, all right."

"How about Bucephalus?" asked the
professor, as soon as he recovered from
his first shock of surprise.

"Don't just call the horse to mind,"
said the Kansas horseman, knitting his
brows in thought. "When did he make
his record?"

"He was the wild horse that was
broken to ride by Alexander, after he
had thrown the most expert eque-
strians of Philip's court," responded the
professor, with an expression that
plainly indicated, "I have him now."

"Why, of course," said the Kansas
horseman. "Ought to have remem-
bered that before. That horse used to
run in a herd that ranged between the
Pan Handle and where Wichita is now.

Used to range down on the Peavine
flats, in Sumner and Harper counties,
nearly every summer. Seen him many
a time. No question but what he was
born down in the southwest part of
the state. Finest wild horse I ever saw.
Had a mane that came down to his
knees, and when he smelled danger you
could hear him snort half a mile. That
fellow Alexander that broke him—let's
see—what was his first name? Well,
sir, he could ride anything that wore
hair, but he mighty near had to give
in when he struck that horse. I under-
stand that he told some of the boys
around town that he wouldn't tackle
another job of that kind for a hundred
dollars. As I was saying, there is just
no end to the wind and nerve of a
Kansas-bred horse."

But the professor from Boston was
not there to hear. He had given up the
unequal contest and fled.—Kansas City
Journal.

DOLLARS DAILY DESTROYED.

Women Experts Who Can Detect the
Best-Made Counterfeits.

Every working day in the year Uncle
Sam destroys a million dollars; de-
liberately tears up and grinds to pulp
\$1,000,000 worth of paper money—
genuine bank notes and greenbacks.
A million dollars in one, two, five, ten,
twenty, fifty, one-hundred, and one
thousand-dollar notes are daily punched
full of holes, cut into halves and thrown
into a machine that rapidly reduces
them to a mass of mushy substance.
Whenever a piece of paper money be-
comes soiled or torn it may be presented
to the United States treasury and re-
deemed. Sooner or later every note
that circulates among the people be-
comes unfit for further service, for it
is bound to become dirty or mutilated
by constant handling, and the United
States government stands ready to give
the holder of such a note a new note in
exchange for it; or, in other words, the
government will redeem it.

The majority of the clerks employed
in this important department of the
government are women, many of whom
are the most expert money counters and
counterfeit detectors in the world. In
fact, only experts can properly perform
the work that is required; for not only
must the soiled and mutilated money
be accurately and rapidly counted, but
all counterfeit notes must be detected
and thrown out. When we consider
that some counterfeiters can so cleverly
imitate genuine money that their spuri-
ous notes will circulate throughout the
country without detection, and are not
discovered until they are finally turned
into the treasury, some idea of the
proficiency of these experts can be
gained, especially when we bear in
mind that these notes are often so worn
that the imprint on them can scarcely
be deciphered. It is not infrequently
happens that these bad notes are detected
simply by the feel of them, which, in
some cases, is really the only way of
discovering the fraud; for while a
counterfeit may occasionally succeed in
so perfectly imitating the design of a
note as to mislead even an expert, it
is next to impossible for him to counter-
feit the paper used by the government.

FREE MEDICAL BOOK FOR MEN.

How to Restore Lost Manhood and
Perfect Development.

This great work, plainly written by a high
medical authority, shows how manly vigor
can be regained and obstacles to marriage
removed. It is a modern work for men who
suffer from nervous debility caused by over-
work, youthful indulgences or later excesses.
It points out how to be cured of self-
depreciation, impotency, *etc.* *etc.* without
interfering with business.

This great book, entitled "COMPLETE
MANHOOD AND HOW TO ATTAIN IT,"
will be mailed free, in sealed wrapper,
to the address of any sincere inquirer.
